Nitrogen.....	2.6100	.24	
Carbonic Acid.....	8.7919	62.40	Saturated
Chlorine.....	1.9651		

The Hot Springs water contains but 11.8 grains of minerals to the gallon, while in the Carlsbad water 230 out of 291 grains are sulphate and chloride of sodium, minerals that are very common and not esteemed of special therapeutic value, while Hot Sulphur Wells Baths of San Antonio contains over 285 grains of minerals, the larger portion of which are of great therapeutic value.

As the natural temperature of the Hot Sulphur Wells water is 104° F. it can be drawn direct from the ground into the tubs, thus preserving all of its *natural mineral* and *gaseous* properties for the bathers. This water comes from wells 2,000 feet deep, having a flow of 300 000 gallons daily.

RHEUMATISM CURED

NATURE'S GIFT TO AFFLICTED HUMANITY

The Hot Sulphur Wells of San Antonio, Texas, are the best and most noted waters in the world for the cure of RHEUMATISM. Sufferers from the most severe and chronic forms of this disease have found in the dry and mild climate of San Antonio, combined with the Hot Sulphur Wells Baths, their one hope of relief. The hundreds of cases that have been permanently cured by these waters, and the strong endorsements by many of the most eminent and noted physicians of the country, attest to their great and unrivaled value to the afflicted.

Note the small rainfall and mild climate of San Antonio, as compared with that of Hot Springs:

ANNUAL AVERAGE	69	26.57	66	91.5	53.70

The fame that the Hot Sulphur Wells Baths of San Antonio are gaining is widespread throughout the United States. The fame of the Alamo City to the tourist and invalid world has long been recognized. Its dry anti-malarial southern climate, its clear weather, equable temperature, where snow is practically unknown, and the Frost King seldom penetrates, its historic ruins and memories, and quaint picturesque surroundings have been the attractive magnet to draw here every year thousands of visitors seeking health or pleasure. The discovery of and the publicity given the marvelous curative properties of the natural Hot Sulphur Mineral Water, with the additional advantage of a climate where baths can be taken with absolute safety and good results every day in the year, accounts largely for the popularity of this resort.
